

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the  
Application:

**Listing of Claims:**

Claim 1 (original): A mounting assembly for mounting an accessory to a weapon frame having at least a first slot formed in a first side of said weapon frame and a second slot formed in a second side of said weapon frame, said mounting assembly comprising:

a body;

first and second jaws on opposing sides of said body, said first jaw having an engagement portion dimensioned to engage said first slot and said second jaw having an engagement portion dimensioned to engage said second slot; and

a first biasing member configured to provide a biasing force against said first jaw to force said engagement portion of said first jaw into said first slot, and a second biasing member configured to provide a biasing force against said second jaw to force said engagement portion of said second jaw into said second slot.

Claim 2 (original): The mounting assembly of claim 1, wherein said first and second biasing members each comprise a spring.

Claim 3 (original): The mounting assembly of claim 2, wherein each said spring is at least partially disposed in said body and has a finger configured to contact an associated portion of said body to prevent said spring from traveling out of said body.

Claim 4 (original): The mounting assembly of claim 2, wherein each said spring has an angled protrusion configured to contact an associated portion of said body to lock said spring in said body.

Claims 5 – 11 (canceled)
